CASHMATE MONEY COUNTER

"I am writing to you to applaud your Ca\$hMate money counter system I purchased from you 3 years ago. Your system has saved me almost 1000 hours of labor in the past 38 months! I challenge anyone to understand the power of accuracy and labor savings alone when counting down tills, verifying change orders from the bank, and preparing daily deposits. And to just think, I only have two cash registers in my meat market! There is no comparison to accuracy, reporting, and functionality of your unit. I consider Ca\$hMate to be an integral piece of the puzzle for my market's success."
